

We Drive SALES GROWTH When You Need it Most

What Sales Xceleration Will Do

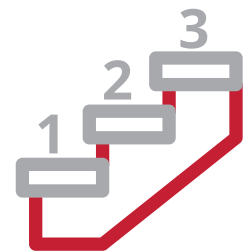

Sales Xceleration will develop a sales strategy to:

- Leverage business intelligence to increase your sales growth rate
- Create your value proposition and points of differentiation
- Locate key target customers and demographics
- Identify proper channels of distribution

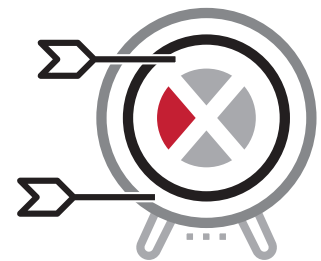

Sales Xceleration will create a sales process that will:

- Create the selling cycle steps that fit your company and industry
- Build a sales process to maximize each business opportunity
- Create rules of engagement that are understood by everyone
- Develop a sales force automation that streamlines your processes

Sales Xceleration will create better sales execution by:

- Precisely defining goals for sales and business growth potential
- Defining the proper sales organization to maximize sales
- Creating forecasting and pipeline management tools
- Developing sales metrics to measure key sales objectives
